## The Quayside neighbourhood

This view of the Quayside site plan looks northeast towards the Gardiner Expressway. The plan incorporates a series of innovations around transportation, social infrastructure, housing affordability, digital tools, sustainable infrastructure, building construction,

and public space — with the goal of improving quality of life for Torontonians. It reflects 18 months of public engagement needed to refine these planning ideas and start to achieve Waterfront Toronto's ambitious priority outcomes.

# MOTION

“SLNA Delegates support the unanimous decision of the Board of Waterfront Toronto to have WT staff complete the formal evaluation of the current proposals for the Quayside Precinct and make recommendations to the Board of WT as to whether WT should move forward with the creation of a Master Innovation and Development Plan (MIDP) for the Sidewalk Precinct.”
