

SLNA Newsletter: February 4, 2020

Did you make it to the last SLNA Community Meeting on Jan. 29? Isorine Marc, Executive Director of popular local arts organization, Jamii provided an overview of Jamii's 2019 programming highlights which you can view here: <https://www.jamii.ca/2019seasonreview>. Keynote speaker Dr. Gary Bloch of St. Michael's Hospital discussed how the Hospital's Family Health Team has become a national and global leader in developing and implementing primary care-based programs to address social determinants of health and health inequalities.

Our diverse neighbourhood includes people in need and those who are more privileged and Dr. Bloch's Family Health Team focuses on providing the right service and support for the particular needs of every patient. To learn more visit the following website:

No Pipeline Dig on Queen's Quay

The central Waterfront became Toronto's foremost recreational area when Queens Quay West was redesigned in 2015. Millions of visitors enjoy the beauty and vibrant cultural life, and it is a favourite place to live.

Now Enbridge Gas is proposing to dig up Queens Quay to install a 4.5 kilometre gas pipeline from Cherry Street in the east to Bathurst Street in the west. This will have a crushing effect on the area, which is home to over 70,000 and serves tourists and the GTA at large. Please speak up now if this concerns you, and spread the word. Email Enbridge Gas through Dillon Consulting Ltd.: NPS20Replacement@dillon.ca Copy City Councillor Joe Cressy at councillor_cressy@toronto.ca and info@yqna.ca
